

Googling OUR WAY TO THE TOP...

Keeping up with the rapidly changing technology has never been one of Cap'n Clawed's strengths. Thankfully, there are younger people and experts (usually younger people) in this area that are a wealth of information and provide great services and insights! Our website, which we revamped over a year ago, has gotten great reviews and there are further improvements in the works.

One place YOU CAN REALLY HELP is by posting favorable reviews at various sites on the internet. The number of and the quality of these reviews helps us quite a bit when people are searching for a great place to eat. Obviously, when you read a terrific review about a place, it whets your appetite

to try it. Not so obvious, but equally as important, is that on search engines, like Google for example, these reviews help with how Marblehead Chowder House gets positioned when hungry people search for "Easton Seafood Restaurants," "Lehigh Valley Seafood Restaurants," etc.

The best sites for these reviews, if you'd care visit check them out and maybe submit one for Marblehead, are:

www.urbanspoon.com

www.citysearch.com

www.yelp.com

www.zagats.com

www.tripadvisor.com
